

AM30

Tilt - Swivel
 Universal Speaker Wall Mount

Features:

- Fits most home theater speakers
- Tilts $\pm 20^\circ$ / Swivels 90°
- Max Weight Load: 8 lbs (3.68kg)
- Low Profile - 3.5" from wall
- Material: Nylon polymer / aluminum

The AM30 offers a universal mounting option for home theater speakers up to 8 lbs. Constructed of molded glass filled nylon polymer and cast aluminum for low resonance, high quality and lasting durability. Included adapter is designed for mounting small cube style speakers with M3-M5 keyhole fixing, a single threaded insert that require a M4, M5, M6 or can be removed for mounting speakers with a single, UNC-1/4" 20 thread. Low profile design keeps speaker close to the wall (3.5") yet still provides a left and right 90° swivel and 20° up/down tilt. Unique 2 piece design allows for easy installation and adjustment. Speaker wire can be routed through the body of the mount from the bottom or back for a clean, clutter free appearance. Available in Black or White. Sold as a single bracket to mount 1 speaker.
